

## Here's a Deal You'll Want to Act On!

Greatly improve your current MegaMeeting.com experience by upgrading your account with the Business Bundle Package. With the Business Bundle Package you will have access to many powerful meeting and collaboration tools.

### Business Bundle Includes:

**Customizable Meeting Rooms** – Customize your meeting experience with a unique DNS – yourcompany.megameeting.com, as well as meeting room artwork for ALL your rooms, consisting of a custom background, logo and colors that match your company theme.

**One-on-One Company Specific Training** - Receive 1 on 1 training focused on your company's needs, allowing you to maximize the benefits you receive from your online meeting experience.

**Multiple Logins** - Assign an UNLIMITED # of logins to your account for other employees or departments. Each login includes a unique User Name and Password. Allow more assignees to access your account without any additional monthly charge.

**Registration System** – Know in advance how many people plan on attending your meetings. Collect participant information prior to your meeting; this is great for use during your presentation as well as for post-meeting follow-up.

**Polls and Surveys** - Conduct live question and answer sessions in Yes/No , Multiple Choice, or Essay format. Share results with meeting participants or keep results private for future use.

**Computer Sharing** - Remote control other attendee computers. Great for technical support, large file transfer, remote monitoring.

**Move Attendees from One Meeting Room to Another** - Great for "break-out rooms" or "private sessions", in which you want to divide up a group of individuals (such as a classroom or training session) into smaller groups.

**Online Active Meeting List** – Make select meetings visible to the world. Allow prospects, clients, employees and associates to come to your website and see if there are any active meetings for them to join.

**Reporting Capabilities** – Monitor usage activity of all your meetings. Utilize for social media and marketing campaigns. Exportable in multiple formats.
