

Experience the Power of Unlimited Video & Web Conferencing

-  Increase the Productivity of your Organization
-  Save on Travel Related Costs
-  24/7 Technical Support and Customer Service
-  Unlimited Video Conferencing Worldwide 24/7

Meet face-to-face and conduct online meetings with your prospects, clients and employees...without anyone ever having to leave their home, office or desk! MegaMeeting increases productivity, saves time and reduces travel related costs. Ideal for Businesses that Desire the Flexibility of Running Video Conferencing Services from Their Own Internal Servers.

100% Browser-based - Nothing to download in order to join a meeting. An Internet connection and a web browser is all that's required. Get MORE people into your meetings!

More Control Over Meetings - With MegaMeeting Enterprise, you have more control over features, such as allowing for higher quality video resolution and higher frames per second (up to 960x720 resolution and 30fps for each video stream).

Use Your Own URL - MegaMeeting Enterprise allows you to originate your meetings from any domain/URL.

Multiple Log-ins - Assign an UNLIMITED # of log-ins to your account for other employees or departments. Each log-in includes a unique User Name and Password. You are able to allocate how many seats each log-in will be allowed to use, as well as track usage by log-in.

Unique Hosting Options - MegaMeeting Enterprise is either hosted on your servers or on dedicated servers (using either your organization's bandwidth and resources, or bandwidth and resources dedicated to you).
