

Experience the Power of Unlimited Audio, Video and Text Chat

-  Increase the Productivity of your Organization
-  Save on Travel Related Costs
-  24/7 Technical Support and Customer Service
-  Unlimited Video Conferencing Worldwide 24/7

Meet face-to-face and conduct online meetings with your prospects, clients and employees...without anyone ever having to leave their home, office or desk! MegaMeeting increases productivity, saves time and reduces travel related costs. MegaMeeting.com Personal is designed for small businesses that desire easy-to-use and affordable Audio and Video Conferencing, without the advanced features of Web Conferencing, such as "ShowMyDesktop" and "Computer Sharing".

100% Browser-based - Nothing to download in order to join a meeting. An Internet connection and a web browser is all that's required. Get MORE people into your meetings!

Cross Platform and Browser Compatible - MegaMeeting works on all PC/MAC/LINUX machines. MegaMeeting is also compatible with all of the major internet browsers, including Internet Explorer, Firefox, Chrome, Safari and Opera.

Video Conferencing with True VoIP Audio - MegaMeeting comes with integrated VoIP audio, allowing meeting participants to speak with one another simply by using a standard headset/microphone.

Live High Quality Video Feeds - MegaMeeting provides the highest quality and most flexible video streams of any browser-based system.

Multi Language Interface – MegaMeeting offers a Multi Language Interface, allowing guests to choose the language they are most comfortable with.
