

**MegaMeeting.com™**

Video & Web Conferencing

For ALL Of Us!

## ***MegaMeeting.com Product & Pricing Overview***

MegaMeeting.com offers 100% browser-based Video & Web Conferencing solutions for all businesses & individuals, rivaling high-end Video/Web Conferencing systems at a fraction of the cost. With MegaMeeting, there is no software to download, install or configure. This means that you will be able to conference with MORE guests and without having to overcome barriers that other systems present (such as software to download, firewalls, etc.). MegaMeeting.com products and services work with just about any web camera, including firewire connected cameras, such as Digital Video Cameras, as well as all major operating systems (Windows, Mac & Linux). With MegaMeeting.com, anyone can easily host and attend meetings, presentations and trainings over the Internet – in **REAL TIME**.

Broadband connections (DSL/Cable/Satellite) are highly recommended for all MegaMeeting.com Video & Web Conferencing services.

### **MegaMeeting Professional Video & Web Conferencing**

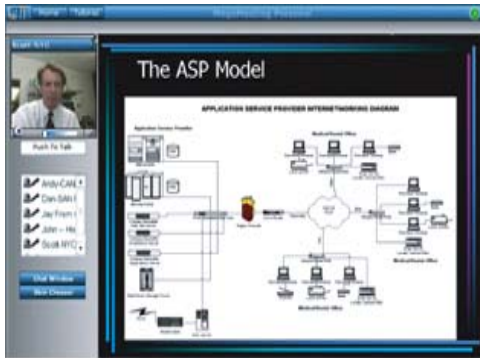

\$995.00 US one-time setup fee – unlimited audio, video & web conferencing.

- 5 person capacity account/unlimited rooms: \$75 US per month
- 10 person capacity account/unlimited rooms: \$150 US per month
- 25 person capacity account/unlimited rooms: \$225 US per month
- 50 person capacity account/unlimited rooms: \$349 US per month
- 100 person capacity account/unlimited rooms: \$499 US per month
  
- Higher resolution is available at \$45 per seat and is limited to 4 seats.

***MegaMeeting Professional*** is designed for individuals and businesses of all sizes that require the ability to share information within their web conferences. ***MegaMeeting Professional*** is hosted on MegaMeeting.com servers and is ideal for on-line meetings, presentations, product demonstrations and trainings.

In addition to supporting live video and audio, ***MegaMeeting Professional*** also supports productivity enhancing tools, including a built-in screen sharing program ("Presenter") that allows anyone in a web conference to perform PowerPoint presentations, as well as share any application or document from their computer to the participants in the conference. Another powerful tool, "Remote Control Support", allows

a host of a web conference to take-over his/her participants' computers ("Remote Control Support"). By allowing companies to be highly productive during their online web conferences, **MegaMeeting Professional** is a cost-effective communications forum that allows businesses to more effectively communicate with their employees, prospects and clients, no matter where they are located.

## **MegaMeeting.com Enterprise Video & Web Conferencing**

\$14,995 US one-time fee, with NO Monthly Payments

**MegaMeeting Enterprise** contains all of the same features as **MegaMeeting Professional**, with the difference being that **MegaMeeting Enterprise** is hosted on the client's servers and runs from any domains the client wishes. Each **MegaMeeting Enterprise** license allows up to 50 simultaneous users (additional licenses are available). **MegaMeeting Enterprise** is also customizable, allowing for video stream resolutions up to 970x720, as well as video capture speeds up to 30 frames per second.

If a client starts with the **MegaMeeting Professional** product and decides later to deploy the **Enterprise** version, they will be credited any **MegaMeeting Professional** setup fees paid towards the purchase of the **MegaMeeting Enterprise** product.

For details regarding the features of **MegaMeeting Enterprise**, please visit [www.MegaMeeting.com/enterprise.html](http://www.MegaMeeting.com/enterprise.html) or call (877) 634-6342.

## **MegaMeeting.com Private Branding Solutions**

Fees vary depending on number of seats purchased

MegaMeeting offers Private Branding Solutions that allow you to create a Web & Video Conferencing Solution you can call your own. With the Private Branding program, all references to the MegaMeeting.com brand are replaced with your organization's specific brandings (such as your company's logo and colors). This is especially ideal if you resell Video Conferencing solutions or if you want to create Video & Web Conferencing solutions that appear indigenous to your organization.

MegaMeeting Private Branding is designed for businesses and corporations that wish to offer their customers or associates a hosted solution for conducting web meetings. With our Private Label solution, if you wish to resell "seats" to your "end users", you can do so and charge whatever amount you wish.

MegaMeeting Private Branding offers more value and flexibility than other web/video conferencing systems, all at a fraction of the price.

For details regarding the features of **MegaMeeting Private Branding**, please visit [www.MegaMeeting.com/privatebranding.html](http://www.MegaMeeting.com/privatebranding.html) or call (877) 634-6342.

## **MegaMeeting Personal Video Conferencing**

No setup fee – unlimited video & audio conferencing

- 5 person capacity/single room: \$49 US per month
  - 10 person capacity/single room: \$79 US per month
- Pay for one year in advance & receive a 25% discount

**MegaMeeting Personal** is designed for Friends, Families and Small Businesses that desire unlimited, easy-to-use and affordable video and audio conferencing, but do not need nor require the advanced features of **MegaMeeting Professional** web conferencing, such as "Presenter" and "Remote Control Support ". **MegaMeeting Personal** allows up to 16 simultaneous participants, supports **REAL TIME**, live video and audio, as well as room customizing "skins", all at an extremely affordable price.
